Director

Career (Continued)

August 2005 - August 2008: ENSR Australia Pty Limited (formerly HLA-Envirosciences Pty Limited), Principal Environmental Planner and Manager Environmental Services.

At ENSR Australia Pty Limited, Brett held the technical role as a Principal Environmental Planner and managerial role as Manager Environmental Services. In his role as a Principal, Brett was responsible for the direction, management and preparation of a range of planning studies and environmental impact assessments in a range of sectors, including mining, extractive industry, industrial and defence sectors. In his role as Manager Environmental Services, he was responsible for the management of technical staff within the Environmental Services Group in Sydney, including planners, environmental planners, environmental scientists, archaeologists and ecologists.

May 2004 - July 2005: Boral Resources (NSW) Pty Limited, Manager Environment and Community Relations.

Brett was responsible for environmental management and community relations for Boral's NSW Metro Quarries Group which owned and operated 14 quarries and associated sites that serviced the Sydney metropolitan market. He also represented Boral as the member of an industry panel that assisted the NSW Department of Planning in the preparation of an Extractive Industries Best Practice Guideline.

April 1998 - May 2004: ERM Australia Pty Limited, Manager Planning Services and Senior Planner.

Brett held the position of Senior Planner, then Manager Planning Services in ERM Australia's Sydney office. During his time at ERM Australia, Brett managed and prepared a large number of environmental planning and impact assessments for a range of government and private enterprise project types. Projects were carried out in a range of sector areas, including property, mining and extractive industries, transport, telecommunications and defence.

February 1995 - April 1998: Gary Shiels and Associates Pty Limited, Town Planner.

During his studies and after graduating from university, Brett worked as a town planner in Gary Shiels and Associates. During his time at Gary Shiels and Associates, Brett prepared a number of planning studies and environmental impact assessments for a range of projects, principally in the property sector.

June 1992 - December 1994: Manly Council, Student Town Planner.

As part of his studies, Brett worked as a student town planner at Manly Council. Duties included assistance with the preparation of strategic planning studies and assessment of a range of development applications for residential and commercial developments.
