## Duncan Peake

Associate

Duncan Peake is an Associate with over 10 years experience in environmental impact assessment (EIA) and community and stakeholder engagement in Australia, Europe and Africa. He has considerable experience in the following sectors: mining, extractive industries, transport, energy industry, agriculture, oil and gas and waste management.

Duncan has specialised in environmental impact assessments (EIA) for state significant development under the NSW Environmental Planning and Assessment Act 1979.

Duncan has considerable project management experience in the development of approval strategies and the preparation of EIA's of large infrastructure projects.

### Career

- EMGA Mitchell McLennan - 2009 to present
- AECOM (formerly HLA-Envirosciences) 2005 - 2009
- Environmental Resources Management - Sydney and Edinburgh 2000 - 2005
- KBR - 2000

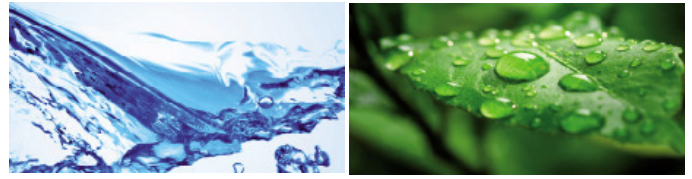

### Professional qualifications

- Bachelor of Science (Honours) in Applied Economic Geography, University of NSW, 2000

### Expertise

- Environmental Impact Assessment
  - Approval Strategies
  - Stakeholder Engagement
  - Community Consultation
  - Social Impact Assessment
-

---

Associate

### Representative Experience

#### *Environmental Impact Assessment*

Duncan is an experienced Senior Project Manager of environmental impact assessments for numerous major projects in Australia and the United Kingdom. He has managed complex projects which have involved a number of technical disciplines which required understanding and coordination to achieve environmental solutions acceptable to both legislators and clients. Examples of issues include threatened species, indigenous archaeology and cultural heritage, hydrology, contamination and remediation, groundwater, soil conservation, landscape and visual amenity, noise and vibration, traffic and transport, hazard and risk, air quality and odour.

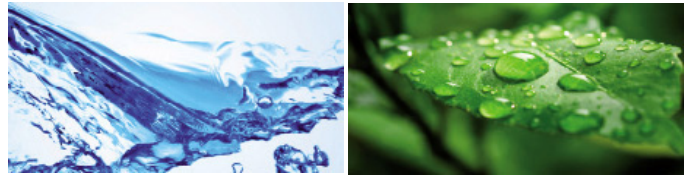

Some examples of large projects where Duncan was project manager include the development of major railway lines, extraction and production of coal seam methane, expansion of an ammonium nitrate facility, an expansion to an underground coal mine, extensions to coal mines (both open cut and underground), a biodiesel plant, construction of a port and transport corridor, construction of a carbon reduction facility, as well as various energy sector projects such as major electricity transmission lines, electricity substations and wind farms.

### Environmental Impact Assessment

#### *Mining and Energy Infrastructure EIA*

- Proposed Warkworth Extension, Warkworth Mining Limited, 2009 - 2011
  - Mount Pleasant Project Modifications, Rio Tinto Coal Australia, 2010 - 2011
  - Proposed Geothermal Energy REFs, AGL Energy, 2010 – 2011
  - Gloucester Gas Project Exploration REF, AGL Energy, 2011
  - Hunter Gas Project Exploration EA, AGL Energy, 2011
  - Modifications to Teven Quarry, Boral Resources, 2010
  - Camden Gas Project Modifications, AGL Energy, 2009 - 2011
  - Proposed Wallerawang 132kV Substation, TransGrid, 2010
  - Proposed Rookwood 330kV Substation, TransGrid, 2009
  - Continued Operation of Baal Bone Colliery, Xstratacoal, 2008 - 2009
-

# Curriculum vitae

## Duncan Peake

### Associate

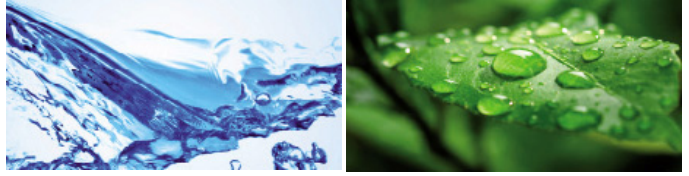

- Northern Expansion of Camden Gas Project, AGL, 2008 - 2009
- Integrated Oilseed Processing and Biodiesel Plant EA, ROBE, 2007 - 2008
- Mount Pleasant Environmental Gap Analysis, Rio Tinto Coal Australia, 2006 -2007
- Mount Pleasant Proposed Modification to Operations, Rio Tinto Coal Australia, 2007
- Expansion of the Camden Gas Project Coal Seam Methane EA - Spring Farm and Menangle Park, AGL, 2007 - 2008
- Eraring Energy Capacity Increase and Attemperation Reservoir, Eraring Energy, 2007
- Upgrade and Extension of Electricity Distribution Line along Wolgan Road, Emirates, 2006
- Black Springs Wind Farm, Wind Corporation Australia, 2004 - 2005
- Colleambally Ethanol Plant Scoping Study, AIE, 2005
- Moruya and Mossy Point Substation and Transmission Line, Country Energy, 2004
- Lochelbank Wind Farm, National Wind Power, 2003 - 2004
- Tuggerah-Sterland Transmission Line Upgrade REF, TransGrid, Tuggerah NSW, 2002 - 2003
- Cumulative Impact Assessment - Bird Collision Study for Edinbane and Ben Aketil Wind Farms, RDC Scotland, 2003
- Cairn Duhie Wind Farm, Renewable Energy Systems, 2003 - 2004

### Environmental Impact Assessment

#### *Transport Infrastructure*

- Edinburgh Tram Line One Northern Loop, tie, 2003 - 2004
  - M74 Completion, Glasgow City Council, 2003
  - Edinburgh Airport Rail Link, tie, 2004
  - Greendykes Bus Link, Edinburgh City Council, 2003 - 2004
  - Ports and Transport Corridor EIS, Austeel and NSW Premier's Department, 2002 - 2003
  - Five Islands Project Environmental Management Plan, NSW RTA, 2002
-

# Curriculum vitae

## Duncan Peake

---

Associate

- Rest Area and Road Realignment REFs in the Western Region, NSW RTA, 2002

### Environmental Impact Assessment

#### *Other Projects*

- Proposed Aluminium Nitrate Facility Upgrade, Orica Australia 2008 – 2009;
- Remediation of Car Park Waste Encapsulation Unit, Orica Australia, 2007 - 2008
- Moira Station Cattle Feedlot, Agricultural Equity Investments, 2005 - 2006

### Social Impact Assessment

Stakeholder consultation matters have underpinned a significant proportion of projects in which Duncan has been involved. Duncan has undertaken social impact assessments or studies for the following projects:

- Review of Environmental Liabilities, Copperbelt Environment Project, World Bank, Zambia
  - BP Location Report - 'What Others Say?', BP, 2000 - 2001
  - Socio-economic Impact Assessment for Metallurgical Carbon Facility, Australian Silicon Operations, 2001.
-
