

Curriculum vitae

Katie Whiting

Senior Ecologist

Katie works as a Senior Ecologist within the ecology services team at EMGA Mitchell McLennan.

Katie's ecological expertise lies in the survey of microchiropteran bats including hands on techniques such as harp trapping, but also remote survey methods such as ultrasonic bat detection. Katie is skilled in the identification of ultrasonic bat call signatures.

Katie has a strong background in ecological management and restoration. Katie has authored, successfully implemented and monitored several rehabilitation plans for coastal, grassland and woodland ecosystems.

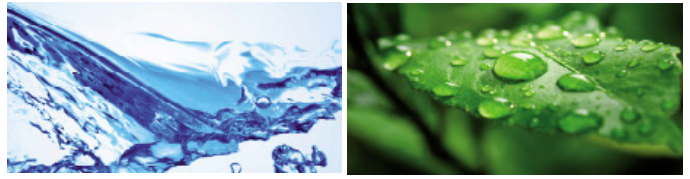

Fields of competence

- Project management
- Flora and fauna surveys
- Threatened species surveys and identification
- *Environment Protection and Biodiversity Conservation Act 1999* referrals
- Ecological monitoring and management
- Survey and monitoring for microchiropteran bats
- Ecological Restoration
- Environmental constraints analysis
- Environmental impact assessment
- Fauna rescue and handling

Professional qualifications

- Bachelor of Science (Ecology), Macquarie University.
- Master of Wildlife Management (Habitat), Macquarie University.

Curriculum vitae

Katie Whiting

Senior Ecologist

Project experience

Major project ecological input:

- Dunoon terrestrial ecology impact assessment (under Part 3A), Rous Water, 2010
- Majura Parkway, Roads ACT 2009
- Clarrie Hermes Drive Extension, Roads ACT, 2009
- Kings Highway Upgrade, Roads ACT 2010

Ecological impact assessments:

- Review of Environmental Factors for upgrades along TransGrid Transmission Lines: NSW National Parks, TransGrid, 2008-2011
- Environmental Flows Releases for the Upper Hawkesbury-Nepean River, Sydney Catchment Authority, 2009
- Wyong River and Ourimbah Creek Restoration Review of Environmental Factors, Wyong City Council 2009
- Hutley Drive Ecological Impact Assessment, Ballina Shire Council 2010

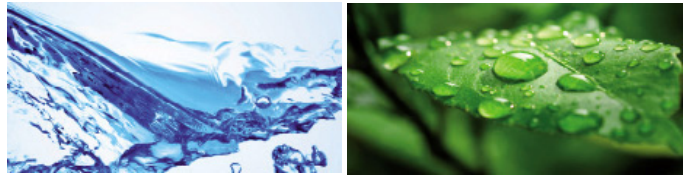

Ecological opportunities and constraints and peer reviews:

- Symonston Ecological Assessment, ACT Planning and Land Authority, 2011
- South West Rocks Ecology Study, Kempsey Shire Council 2008
- Environmental Data Survey and Processing, Transgrid, 2007-2008

Ecological monitoring and management:

- Tarcutta Bypass Threatened Species Monitoring, Tarcutta Hume Alliance 2009 - 2011
 - Baseline ecological monitoring at Upper Nepean Borefields, Sydney Catchment Authority, 2006-2009
 - Georges River Estuary Process Study, GRCCC, 2008
 - Prospect Creek Strategic Management Plan and Rehabilitation Plan, Fairfield City Council, 2010 - 2011
-

Curriculum vitae

Katie Whiting

Senior Ecologist

Fauna mitigation:

- Tarcutta Bypass Fauna Rescue and Nestbox Allocation, Tarcutta Hume Alliance 2009- 2011
 - Holbrook Bypass Fauna Rescue and Nestbox Allocation, Abigroup/RTA, 2011
 - Bulahdelah Flora and Fauna Management Sub-Plan, Abigroup/RTA, 2008
 - Hume Highway – Nestbox Survey, Pre-clearing Surveys and Fauna Rescue, Northern Hume Alliance/RTA, 2008-2009
-
