

Curriculum vitae

Luke Stewart

Managing Director

Luke leads a successful planning, environment and acoustic consultancy company. The company continues to expand, with an ever-increasing number of satisfied clients. He has a growing reputation for his strategic, business and interpersonal skills.

In terms of other management and technical expertise, Luke has been a project manager and director of complex multidisciplinary environmental assessments. He has been responsible for the successful delivery of over 60 environmental impact assessments, all demonstrably in accordance with relevant state laws.

He produces client focused solutions whilst managing social and environmental risk, reputation, regulatory approvals and compliance. He has driven numerous projects from initial feasibility through to project implementation. Environmental feasibility reports for which he has been responsible have identified key environmental issues, appropriate approval pathways, ranked project risks, and included project scheduling.

Fields of Competence

- Environmental Planning and Impact Assessment
- Environmental Project Management
- Environmental Management Plans
- Stakeholder Engagement
- Waste Management
- Waste Water Management

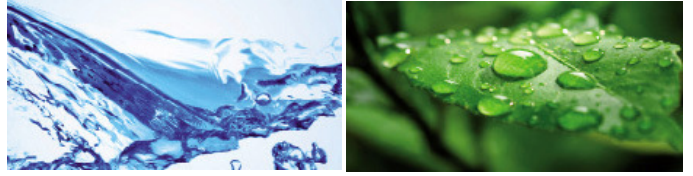

Key industry sectors

- Mining and extractive industries
- Energy and utilities
- Waste and waste water
